RE: Paulsan Construction Inc. – Recommendation Letter

To Whom It May Concern:

It gives me great pleasure to recommend Paulsan Construction to you regarding any office, washroom, or industrial commercial construction in the Greater Toronto Area.

Con Cast Pipe has hired Paulson for the majority of our projects over the last two years, ranging from building and washroom renovations to newly developed fully functional structures.

Over the last (10) ten years I have reviewed dozens of General Contractors and monitored the work provided, I have found Paulsan consistently setting the standard that others should follow. I believe you will find Paulsan to be responsive, thorough and competitive when it comes to price.

Paulson is reliable and quite frankly they have eliminated the spot checks that were part of my past history when dealing with a number of contractors.

I highly promote Paulsan Construction services to my existing clients and would recommend Paulsan Construction for your next project.

Please feel free to contact me should you have any questions or require further information regarding my business dealings with Paulsan Construction.

Sincerely,

**John O'Keefe**  
Procurement Manager
