Re: Shoppers Drug Mart Renovation project

This letter is to express our appreciation for the quality service Paulson Construction Inc. provided in support of our project in Hamilton.

The quality of service and professional workmanship helped make our project a success. We appreciate Paulson keeping to the planned timelines and delivering with quality. The communication was collaborative, the service was professional and the change order process was positive for both parties.

We look forward to working together again on future projects and Aegean would be happy to be a reference for prospective clients.

Regards,

George Loumanis
