To Whom It May Concern:

Please accept this letter as my recommendation of the construction firm, Paulsan Construction Inc. I have had the opportunity to work with Paulsan Construction over the past year for the Norfolk County Public Library project and renovation of the new Lakewood Public School (formerly Port Dover Composite School), valuing their work over \$2 million as general contractor with Norfolk County and the Grand Erie District School Board.

Paulsan Construction completed demolition of the interior of a local high school and rebuilt it to be the new Port Dover Branch of Norfolk County Public Library, and renovating other sections of the school to create a full JK – Grade 8 elementary school. The new library branch is located inside this new school - Lakewood Public School (formerly Port Dover Composite School). These new, innovative facilities have been significant additions to the Norfolk County community.

Paulsan has consistently demonstrated their commitment to the success of these projects during all phases, and I regard Paulsan Construction as a highly professional and reliable general contractor. Their attention to detail and willingness to achieve the final outcomes envisioned by Norfolk County Public Library is very commendable.

I highly recommend Paulsan Construction for your next project. I look forward to our continued partnership with Paulsan Construction and welcome you to contact me should you have any questions or if I may be of further assistance.

Sincerely,

Heather King, BRLS, MPA
